Gained 23 Pounds in Weight as Result of Taking Powley's Liquified Ozone.

I have pleasure in testifying to the benefit I have received from the use of Ozone.

I have had serious trouble with my kidneys for about four years, and was generally run down from overwork, my nervous system being quite shattered.

About four months ago I began using Ozone, and to-day I am quite a new man in every respect. Kidney trouble entirely disappeared, and my system generally is thoroughly built up, in fact, I have gained 23 pounds weight.

I know of numerous cases where I have recommended Ozone, and in none of which it has failed to do what was expected of it.

Little Liver Pills

The quickest relief, for a

cold, is by Scott's emulsion of cod-liver oil. We all have colds, you can

try it and see. You will find the edge taken off in a night; and, in three or four days, you'll be wondering whether that cold amounted to anything anyhow.

That's relief. If you tackle it quick, the relief is quick and plete, if you wait till the cold is in full possession of head and lung, why, of course, the relief is quick II it comes in

a week.

A little emulsion won't clear
and restore your whole breathing-machine in a minute; don't
be looking for miracles.

Will used your little to by, U you like.

To unite in harmony the various organs of the body and to supply to them the nerve fluid—that subtle force which runs the machinery of the body is the duty of the great sympathetic system of nerves. Without the vital force supplied by the nervous system, the heart, lungs, stomach, liver, kidneys and bowels are powerless to perform their functions, and hence it is that weak, starved and ex-

hausted nerves result in such derangements as cause indigestion, nervous dyspepsia and headache, pains in the back and loins, tired, languid and despondent feelings, loss of energy, ambition and appetite, fear to venture and incapacity for business, nervousness, weakness, irritability and irregu-larities of the delicate feminine organism. The family physician seldom gets at the cause of these ailments. He gives a powder for headache, some form of opium to cause

sleep, or a stimulant to whip up the de-bilitated nervous system. The tired brain,

the worn out nerves, the wasted strength

must be nourished and built up before nature can have power to drive out disease. No prescription was ever filled that can so

thoroughly revitalize and reconstruct the

wasted nerve cells as does Dr. Chase's
